STILL ADVANCING.

The Emancipation Celebrations held January 1, 1919 throughout the country tell their own encouraging story of the rise and progress of the race. It has been (200) three hundred years since the Colored man progress of the colored man introduced in America and the colored man introdu introduced in America and it been (56) fifty-six years since issue of the Engacipation damation. Standing today surrrociamation. Standing today sur-rounded by the opportunities of the 20th century, let us confidently look into the future and believing in God and ourselves, make the leap. It is significant that the Negro peoples are turning to this ever annual revring event, for it is at such celeportions that we have our best op-portunity to study our history. The prilliant fore fathers more and more flumine the records of the past and hey serve to increase our self repect, without which the race can of liope to win the respect of the alance of mankind.

At the celebration held Wednes-At the celebration held Wednesday night, Jan. 1, 1919. Dallas at New Hope Baptist church, a record was broken and in our opinion, it marks a local epoch. The all-star program received round after round of applause, which denoted a veritable ground swell of popular opinion and the audience left with reewed courage and higher hopes. Dr.
Arlington Wilson who delivered
to principal address was at his
ast and showed himself at once

He must include in his new Americanism a desire to participate in the making of the law which he must obey and in the selection of the officers who must enforce the law. His place in the body politic is not secure and his rights and privileges are not out of the wilderness of dispute until he is one among those who gives his consent to the governed. Because all this is true, in Toxus be must go to the tax collector's office and pay his poil tax. There are at least 140,000 men of color in Texas, who can qualify for the elective franchise, and this army properly disciplined and led can do much to give Texas a better do much to give Texas a better standing in the politices of the coun-try. JUST ONE WAY.

Pay your poll tax. Quit talking about liberty and justice. Quit abusing the white man at his back for not giving them to you. Thou, fool knowest thou hot that he who would be free, himself must strike the blow? We talk of liberty as if it were a mack of flour. We talk of come one robbing us of our rights as if our rights were in a stolen purse. The Liberty and sights of a man, are not such things as a man can lose in the sense he cases a pocket mife. Their loss is always chargeable to the man who makes complaint. Their acquisition is always to the credit of the man who makes complaint. Their acquisition is always to the credit of the man in whose possession they are found. The way for the Colored people to secure them is the way by which white mes secured them. The historian has been faithful. Go read the chyonicles and learn what man has done, man can do again.

race in this country must not longer fool themselves in the belief that talk will solve our problem. They must remember that in the matter of talk, they are not the only pebbles on the beach, for the white man is some talker. They must remember that the white man, although he talks, does not rely on talk. He he talks, does not rely on talk. He collows up talk with abundant work. vent you living on a front street, even if it takes force—brute force— to do it. EXPLAINED ONCE MORE.

When you fail to get your paper emember that we are human. Also bear in mind that the publisher can not come and bring your paper in person. He sends it by Uncle Sam. The post office at Dallas is sometime to blame. The railway mail agent is at fault sometimes, and don't forget the postmaster at the nearest railroad town and the rural route magnate. They too have a chance to lose or delay your paper. Of course sone of these intefere intentionally, but remember as you and swear and tear your hair that all of these are human. We are spending time and money to make the Express a great paper; we are con-suming brain and nerve trying to deliver it. If you must kick, for the Lord's sake don't quit. It is the quitting that hurts. This is 1919 now and we have torn out the old leaf. Stay wth us. If all the signs fail, we are going to do better.

HATS OFF TO SCOTT.

Hon. Emmett J. Scott, special assistant in the War Department has been asked to continue with the Department at least during the period of demobilization. He has been commended for his very efficient men and women. THE PASSING OF ROOSEVELT.

The country mourns the passing of the world's first citizen, Theodore Roosevelt is dead. Truly a great man has fallen in our midst. The associated press flashed this intelligence around the world of an early their breath boosting the roose around the world of an early their breath boosting the roose around the world of an early their breath boosting the roose around the world of the people who spend ligence around the world of an early hour Monday, January 6, 1918. His was a varied career and wheth poll tax amendment or the klu klux klan or red-shirt brigade. You may look at him from every angle and you will find him following up the word with the action. It is in this way he makes things happen and brings things to pass.

Let the Colored people in the new year learn this new lesson. "Talk is cheap, but money makes the mare go," is an old adage of the betting ring around the race track. certain processes of evolution and the fire and flame of revolution; being too cautious for the first and too alert, energetic and impatient for the second, he struck a happy mien, trusting his great knowledge of public necessity and his great sympathy for the masses to guide him into the harbor of national safety. That such a character would while making uncounted admirers, develop robust opposition was to have been expected, but after all, today protegonist and antagonist, stand alike around his bier, and pour out a nation's tribute to the worth of his sterling Americanism.

Roosevelt's death at any time would have been a top line regret, but coming at this time, when we are about to enter upon the great work of reconstructing a nation, it is a public calamity. His intreped skill, his ripe statesmanship, his dauntless courage and his farsightedness, were the qualities which he would have offered his countrymen, and it would have been a safety like unto the rocks of Gibraltar. In common with other patriots, the Dallas Express mourns his loss; but we confidently turn in this hour of grief to Him who has said that he would be our buckler and strength, and who has promised that the floods that shall not overwhelm us,

Miss Smith's work at the l speaks for itself. The fine and sample tell one story work of the girls in their homes tells the greater story in approaching of what they have learned in the own gowns, and other weardles so essential for every girl to how how to make and beautify. If a girl speaks French,

ish, or is able to enter into the beau-ties of Latin or Greek, or size like Colridge Taylor, she should by all means know how to sew, to delineate. The common destiny is to mate and marry and this leads to the Horace Mann, more and more, as we see the need of practical edu-cation. Horace Mann said that if a boy goes to college and completes the college course, if his father is Lawton, Okla., Jan. 9 .- Texas boy a farmer, that he should raise more corn to the acre than his un-educated father, and if his father is a carpenter, he should make a better carpenter than his father.
